

What the Wrap?!

Description

I love wraps, salad wraps, corn wraps, vegetable wraps, halloumi wraps, salmon avocado wraps, what ever the.. wraps. And art puzzles, one of my guilty pleasures, that hardly anyone I know understands. Puzzles.., is that not for retired grandmas with not much to do. Well maybe, but also its something for Peggy. About 3 times a year I make one, like the â€˜School of Athensâ€™ (Raffaello), â€˜Cafe terrace at nightâ€™ (Van Gogh), â€˜Lady with fanâ€™ (Klimt) and currently â€˜The tower of Babelâ€™ by Bruegel. Not everybody appreciates the puzzle taking up the space of 2/3 of dining table, but I have a new solution for that. Instead of eating around it (what we used to do) I cover it with a table cloth for dinner! During my wrap lunch though, I do not mind staring at Nimrod in the left bottom corner and putting a few pieces together. Here the ingredients of this particular wrap.
